

Inter-Professional Placement Evaluation
SEIPCLE IPE Student Exit Questionnaire -

Students may evaluate their IP experience using the SEIPCLE *IPE Student Post Placement Feedback* form as well as through reflective exercises and journals

Student Exit Questionnaire for SEIPCLE

Name:

Instructions:

Background Information

The questions below ask about your experiences regarding the Interprofessional Placement Activities that you engaged in during this placement. Your answers will remain anonymous and will help us to consider appropriate changes to the activities for future students.

Expectations of this Placement

1. What were your overall impressions of this placement?

2. What is your understanding of a Collaborative Learning Unit?

3. What surprised you most about the placement?

4. What did you find most challenging about this placement?

5. How was this placement similar to/different from previous clinical experiences? Please elaborate (for example, supervision, learning opportunities, communication within the team, student's communication with the team, collaboration, patient/client-centred practice, patient involvement).

6. Was the Interprofessional Shadowing Activity (or other IP activities) educational and/or useful? Please provide examples. Did this activity influence your participation with the team in any way? (ie. increased communication, decreased anxiety in sharing at team meetings, increased understanding of scopes of practice of other CLU members, increased awareness of the patient perspective)

7. Do you think this experience may influence your future practice? In what way?

8. Will you look for opportunities to work in a CLU in the future? Why or why not? Please explain.

9. Feedback related to future student placements? (Don't change...Please consider...)
